

# A Hanukkah Meditation

---

# Happy Hanukkah!

## Bringing Light to the Darkness

**Let us stand together as we light the candles this Hanukkah**, connecting to each other and to the Jewish tradition of recovering the light and what is holy from the darkness of the world.

**Let us sing our songs**, opening our throats to call for mutual respect, care for the needy, and fair treatment of all people, of all genders and sexual orientations.

**Let us celebrate with food and games**, investing our coins in social justice and righteous action, as Jewish people have always done.

**Let us lift our spirits as we join together for the common good**, finding joy in our connections, on whatever level of intimacy we choose.
