### Discover Moving Traditions' groups for teens, forming now for 2020-2021!

It's not easy being a teenager. Even outside of school, the pressure is on, and issues like self-esteem, competition, and relationships add to the noise. This is why real friendships and trusted mentors are important, and the values and support of Jewish community can be a positive guiding force. And this is why Moving Traditions created **Shevet**.

Once a month, in small peer groups\* with trained adult mentors, teen boys bond and have open conversations in a safe space. **Shevet** has a positive and lasting impact on teen boys, empowering them to become strong Jewish men.

\* Groups are designed to meet either online or in person.

**We help teens grow into confident, happy, and successful young adults!**
